

## Eric Schrowang Bio for NMRA Atlantic Division

My Name is Eric Schrowang, I have been a member of the NMRA since 2020. I belonged to the Northeast Regions Seacoast division until 2018 when we moved to South Carolina where I started with the Southeast's Palmetto division. In 2023 I transferred to Summerville becoming part of the Atlantic division.

I have 2 daughters who are both grown and out on their own. My wife and I enjoy a small home in Summerville with our Dachshund Bela and our cat Zoe.

I got my start in model railroading because both my father and grandfather were avid model Railroaders. My grandfather and father modeled both HO scale and On3. I received my first Lionel train set as a Christmas gift in 1976. This and the fact of having 2 other model Railroaders influence in the home has helped me grow in our hobby.

I currently model in HO scale. I enjoy modeling the steam era from the late 1800s to the mid-1900s. Currently my goal is to earn my MMR certification over the next few years.

I look forward to my time as a director in the Atlantic division with the goal to help move our division forward into the future.
