Atlantic Division BOD

Gentlemen:

I would like to submit my name for election to the Atlantic Division as Director.

My involvement in model trains goes back to my childhood in North London where we watched wonderful steam locomotives traveling up and down the east coast (LNER). After moving to the US in April 1975 I rekindled my interest in model railroading with an outdoor layout in our backyard. Up until 2003 I was an active member of the Washington, Virginia and Maryland Garden Railroad Society and after our arrival in Duluth, GA, we built a garden railway and was very active as Treasurer and President of the Georgia GRS. Following a couple of floods that created serious maintenance issues, we decided to sell the G scale outdoor and move indoors with a On30 layout, also called the Mole Valley Railway. The On30 layout was completed in mid-2019 but taken down in later that year as we prepared for our move to HHI.

I joined the NMRA - Piedmont Division in 2007 and served two terms as Director-at-Large (2012 – 2016). I also served on the SER Board for about 12 years as Treasurer, Vice President, President and Executive Adviser.

I have completed all but one of the modeling requirements for my MMR. I plan on building the final 3 cars over the next 6 months!!
